Mr. Arthur E. Gardner, Director
Composition Information Services
1605 North Cahuenga Boulevard
Los Angeles, California

Dear Mr. Gardner:

25X1A9a

There is enclosed a copy of [REDACTED] talk given to the Printing Industry of Washington on November 15th on our "Computer Assisted Photo-composing System" which you requested. I am also enclosing a copy of the slides used to illustrate this talk. I believe that you probably have the Research and Engineering Council's transcript of the proceedings of their Conference on Computerized Typesetting held March 2 and 3 here in Washington, D. C. This talk was the same as the one which [REDACTED] gave before the Printing Industry of Washington.

25X1A9a

We are quite interested in your CIN Newsletter and have recently entered a subscription for it. So far we have not received the material which goes with the subscription. I am not sure as to just when the subscription reached you, but you may want to look into the matter to see if there is any delay on your end.

Very truly yours,

25X1A9a

Chief
Printing Services Division
